FOR ALL CIRCUMSTANCES!

The ToughDrive Sport has been designed with heavy duty use in mind. When you take your data with you on an external hard drive, you expect it to work under all circumstances, and survive the bumps and drops that do happen when you're on the move.
Shock resistant, outdoor-style design, integrated USB cable with climbing rope texture and encrypted password protection. Safe, reliable, stylish – that's the ToughDrive Sport!

TOUGH DRIVE SPORT

EXTERNAL MOBILE HARD DRIVE / 2.5" / USB 2.0
WIN & MAC

Freecom ToughDrive Sport

- Durable, shock resistant hard drive, ideal for mobile computing
- Outdoor active sports design, including integrated USB cable with unique climbing rope texture
- Internal anti-shock mechanism insulating the hard drive from shock
- Can withstand falling from 2 metres on a flat surface
- Secure encrypted 256 bit MD5 hardware password protection
- Turbo HDD USB 2.0 driver, for faster data transfer speeds (Windows only)
- Integrated USB cable, no additional connection cables needed!
- The easiest way to add additional storage space to your computer
- Fast and easy "plug and play" installation, no need to restart your computer
- High quality design, only 155 x 91 x 21 mm in size
- No cooling fan, no noise!
- Including extensive backup software
- USB 2.0: available as 250 and 500GB
- All Freecom devices meet the highest industry standards
- Unlimited helpdesk support

Designed for:

- *Data storage;* use all your data, like business information, digital photos, videos, MP3s and withstand bouncing around in handbags, cars etc.
- *File sharing;* share all your important data between computers and networks
- *Backup;* protect all your data against calamity, human errors and virusses
- *Archiving;* archive all your data and lock up drive for extra data security
- *Installations;* copy all your software on multiple PCs

The Toughest and Sportiest drive there is – optimal protection for your data!

In today's world mobility has become a key factor. Business-user or consumer… we all carry our data with us and we all require it to be there when we need it. Imagine what can happen when you're on the move, for example biking, commuting to the office, running to catch a flight ….and suddenly your external hard drive accidentally falls from your notebook case or jacket pocket… it breaks, and hundreds of hours of video's, music, your work, gigabytes of spreadsheets, documents, photo's are all gone. Not anymore! The ToughDrive Sport offers you, next to a unique sportive design, a drive that can withstand bumps and drops so your drive is still fully fucntional after it has dropped. You can still access your valuable files. A safe feeling – provided for you by Freecom!

Secure hardware password protection

The ToughDrive Sport is equipped with a secure hardware 256bit password protection feature. Your password is encrypted and stored in a chip – the data on the drive can only be accessed by entering the correct password. The obligatory combination of the hardware chip and password to unlock the drive and access the data means that even if the internal hard drive is taken out of its original enclosure and assembled into another enclosure, people will never be able to access the data. Should you forget your password or should you lose your ToughDrive, the only way for anyone to be able to continue using the drive is by reformatting it, thereby erasing all data. There is no possibility for password recovery. There is no safer way to protect your data !

TOUGH DRIVE SPORT

PRODUCT SPECIFICATIONS FREECOM TOUGHDRIVE SPORT:

CAPACITY: 250GB, 500GB

INTERFACE: USB 2.0, can also be connected to USB 1.1 port

HARD DRIVE TYPE: 2.5" SATA, low noise, low power consumption

DATA TRANSFER SPEED: up to 480Mbit/s (USB 2.0). Increase the transfer speed by using the included Turbo HDD USB 2.0 driver (Windows only)

DATA SECURITY: 256 bit MD5 hardware password protection

WEIGHT: 260g / 9.2 Ounce

DIMENSIONS: 155 x 91 x 21 mm / 6.1 x 3.15 x 0.83 inch

MTBF: 50000 P.O.H.

SHOCK RESISTANT: Operating 300G, non-operating 1000G

MAX. DROP HEIGHT: 2 Metres free drop on flat surface

CONNECTOR: Integrated USB 2.0 cable (30cm) with unique climbing rope texture

POWER REQUIREMENTS: USB bus powered, no power adapter required*

ENVIRONMENTAL SPECIFICATIONS:
Operating temperature: 10° C / 35° C
Storage temperature: -20° C / 70° C

MINIMUM SYSTEM REQUIREMENTS:
PC: Intel Pentium III / AMD Duron 900 MHz or higher, 256MB RAM (Vista: 512MB RAM) or higher, available USB 2.0 or USB 1.1 port, Windows 2000 / XP / Vista
MAC: PowerPC G3/G4/G5, Power Book G3/G4 or Intel Mac, 256MB RAM or higher, available USB 2.0 or USB 1.1 port, Mac OS X v10.3 or higher

* Valid for most computers. In case the power provided by the USB port is not sufficient, please visit www.freecom.com

NTI SHADOW - EASY TO USE BACKUP SOFTWARE FOR WINDOWS AND MAC COMPUTERS

NTI Shadow for PC and Mac is an easy-to-use backup application that automatically protects your photo, music, video, and various data files. It makes data restoration as easy as dragging and dropping files from one place to another. For real-time, continuous data backup, set Shadow to save your files/folders every time they change. You can also specify your backup schedule by the minute, hour, day, week and start time(s) and also choose a specific or even a customized file type with Shadow's new advanced file filtering.
Not only does Shadow allow users to automatically copy files from their PCs to various devices in real time, but it also preserves the files in their native format - meaning no additional software is necessary to restore files. Shadow works transparently in the background without disturbing you while you work, and does not take up important system resources.

PACKAGE INCLUDES:

- ToughDrive Sport 2.5" mobile external hard drive
- Integrated USB cable
- Quick Install Guide
- Unlimited helpdesk support
